

Partners in Health,

Welcome to the Perry County Healthy Community Coalition! We are excited you're interested in our work and invite your participation in making Perry County a healthier place to live. The coalition *usually* meets the second Friday of the month at 2pm. The meeting is located at Marshall Browning Hospital (directions included in this packet). Meeting dates, agency presenters, minutes and additional information about coalition activities can be found at:

<http://www.sih.net/about/community-benefits/healthy-communities-coalitions/>

Each community partner is welcome to network at the community coalition meetings. Whether you are interested in attending to network, to keep current on health-related events, or to join a specific action team we are happy you are at the table!

If you have additional questions or concerns you can check our website for information or contact Barb Taylor at (618) 357-5371.

Sincerely, (PCHCC)
